

Assignment 2.2

You'll complete this item using the course's autograders. Open the tool using the button below.

This course uses a third-party tool, Assignment 2.2, to enhance your learning experience. The tool will reference basic information like your name and Coursera ID.

I, **Ishaan Narula**, understand that submitting work that isn't my own may result in permanent failure of this course or deactivation of my Coursera account.

Done

**Your Output**

2.2 Write a program that uses **input** to prompt a user for their name and then
Hello Sarah
welcomes them. Note that **input** will pop up a dialog box. Enter **Sarah** in the pop-up
box when you are prompted so your output will match the desired output.

Grade updated on server.

```
1 # The code below almost works
2
3 name = input("Enter your name")
4 print("Hello", name)
```

Desired Output

Hello Sarah
